

Emotional Intelligence

Course Overview

The rules for work are changing. We're being judged by a new yardstick: not just by how smart we are, or by our training and expertise, but also by how we handle ourselves and each other. This is increasingly applied in choosing who will be hired and not, who will be let go or retained. In a time with no guarantee of job security, when the very concept of a job is being replaced by "portable skills," these are prime qualities that make and keep us employable. Talked about loosely for decades under a variety of names, from "character" and "personality" to "soft skills" and "competence," there is at last a more precise understanding of these human talents: EMOTIONAL INTELLIGENCE.
